Your application

Dear Kabin Thapa,

Thank you for your interest in studying at the University of Kassel.

You have applied for winter semester 2026 to get an admission for the master degree programme Computer Science.

I am sorry to notify you that after reviewing your application thoroughly, our selection committee is unable to offer you an admission to the University of Kassel. All academic aspects of your application were considered carefully.

Our admission board has evaluated your application documents in detail and regrets to inform you that you cannot be admitted to the study programme Computer Science because admission to the MSc programme in Computer Science can only be granted to those who have completed a BSc programme that is equivalent to the BSc programme in Computer Science at the University of Kassel. Missing parts can be equalised through the addition of qualification modules of up to 30 ECTS credit points. Your application has been checked based on the submitted documents, and it was determined that, in order to reach equivalence, qualification modules of more than 30 credit points would be needed..

Due to this reason, I am sorry to inform you that an admission to the master programme Computer Science is not possible.

We are pleased to have received your application to our university. I am sincerely sorry to disappoint you, yet trust that you will have other opportunities to attend another very good university.

I wish you all the best for your future.

Yours sincerely,

on behalf

gez. Ernst/Hirstein
